IMPLANTS!!! a fixed solution for
replacing missing teeth!!

Page 2: What is an **DENTAL IMPLANT?**

Page 3,4 &5 : All you need to know about **DENTAL IMPLANTS !!**

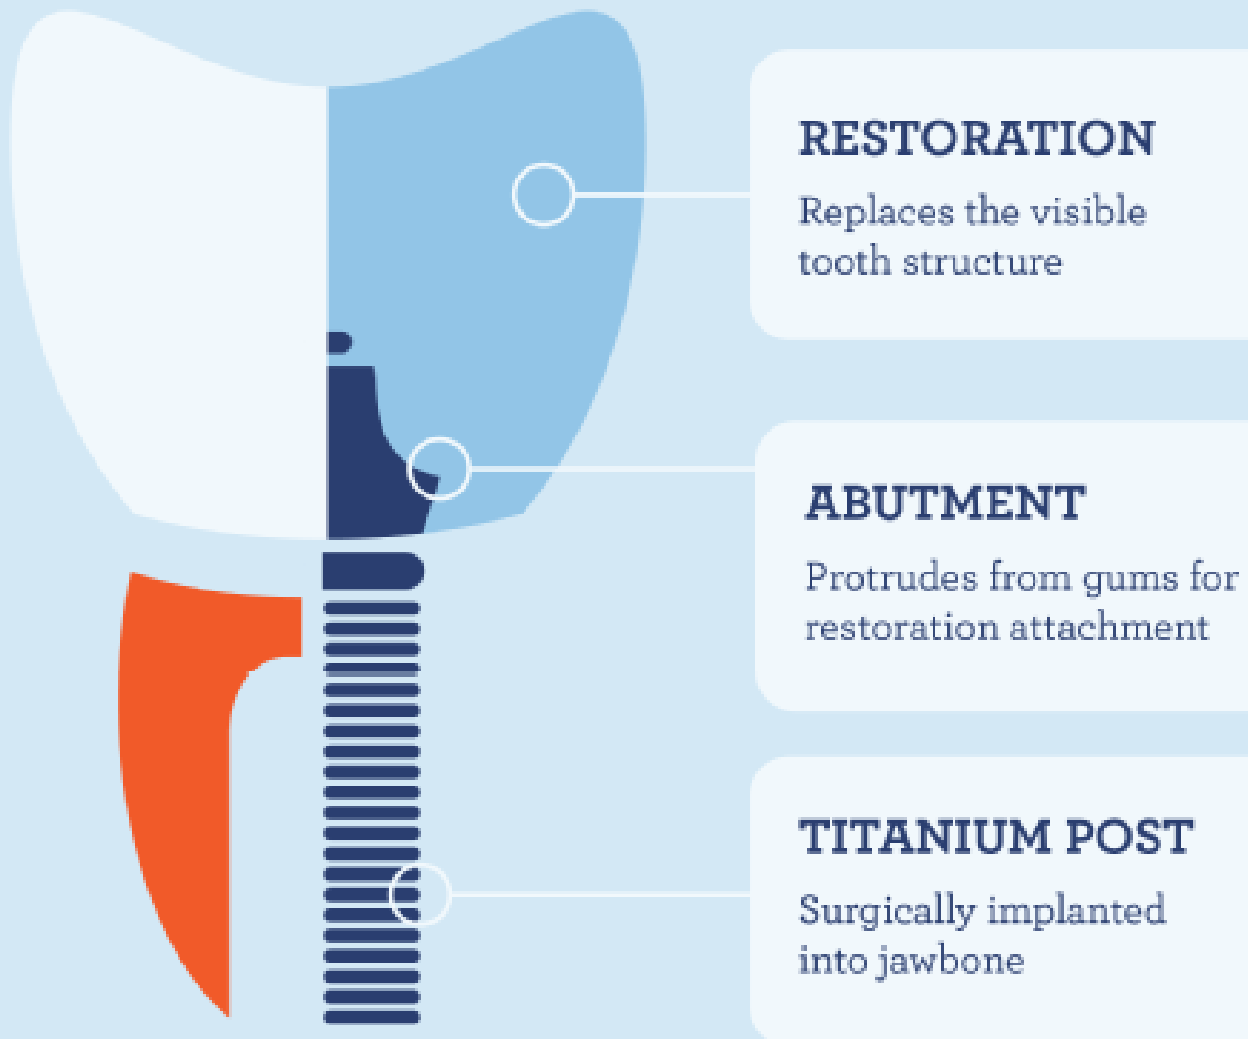

Page 6: Case of the month!!

Page 7 :They say it .. we love it!!!

Implant is a replacement of a tooth root over which a crown[cap] is placed

IMPLANT COMPONENTS

The **IMPLANT** binds to the bone directly. So that it is firm and acts as a natural tooth helping you eat and chew everything with ease and can be maintained like a natural tooth

When can you get a **DENTAL IMPLANT** ??

- Implants are usually advisable after the age of 20 as after this age the bone is fully formed. If you are an adult, **age is no bar** for getting implants done.
- You should have **healthy bone and gums** .
- You should be **fit** for the implant procedure, i.e healthy, and if at all you do have any health issues it should be under **controlled** and permissable limits.

How much time is required for a **DENTAL IMPLANT** procedure ??

IMPLANT PLACEMENT

Time :

As little as 30 minutes depending on complexity and number of implants to be placed

FUSION OF IMPLANT TO BONE

Time :

6 to 8 weeks

PLACEMENT OF CROWN [CAP] ON THE IMPLANT

Time :

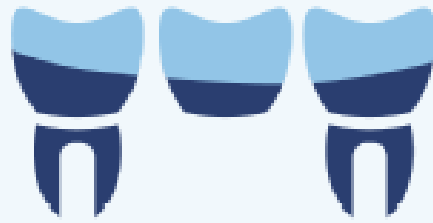

Around 5-7 days

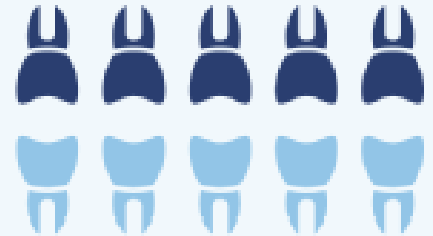

Implants Can Replace:

A SINGLE
tooth with a
crown

MULTIPLE TEETH
with a bridge or
partial denture

ENTIRE ROWS
of teeth with implant-
supported dentures

Please note : In some cases implant prosthesis {dentures or crowns} can be given within 72 hours post placement of implants..

ADVANTAGES OF HAVING IMPLANTS

- Acts as a natural tooth.
- Easy to maintain like a natural tooth
- looks natural and esthetically pleasing
- No need to grind natural adjacent teeth to replace missing teeth.
- Fixed solution.
- freedom to eat
- Long lasting.

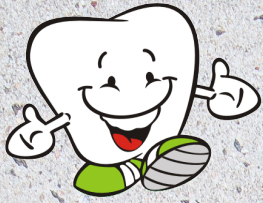

before

after

Patient came to us as she was unable to chew and had an unpleasant appearance of teeth. After thorough evaluation patient was advised to get full mouth implants done. A simple surgical procedure resulting in massive transformation both functional and pleasing too.

They say it, we love it!

Dr. Dhruti is extremely good Dental surgeon, thorough in her knowledge and extremely humble human being, with a infectious smile on her face. She is always willing to answer all your queries. Excellent, well trained and polite staff, and also an exceptionally clean clinic. Dr. Sonar who is a visiting Dental Implant surgeon is a fast and highly skilled surgeon too. I had no pain during the surgery and even in my postoperative period. No swelling also. Hats off to such a nice Dental surgeon.
